

PROMIS 4.17 Training

[Transplant Referral / Document History](#)

Background:

In this release, the upload and delete functionality will be removed from the ACP, PCR and TB modules. Going forward, documents can only be uploaded and deleted in Document History.

Navigation:

PROMIS 4 > Patient Overview > Documents

Functionality:

The Document History module will be the only place where a document can be uploaded to and deleted from. When the record for the document is expanded on the Document History summary page, the details will any other modules the document is linked to.
